

This Bull Rides Tonight

Hunter Valentine

Dot all your I's, cross your T's
And send your letter out to me
Cause it's getting colder
And we're getting older
And you keep trying to leave
So build up that guard against me
You're tougher than nails, you won't see
That I've been a good kid
Patient and honest
And I'm just trying to breathe

I can't take the way you take away from me
It's three steps forward, ten steps back to me
I can't change, change a single thing about me
And even if I could only,
You'll never love me
I'll stay the same me
This bull rides tonight

What comes around weighing the growth
Debating the things that you know
I wasn't your best bet
But don't you regret this
Don't leave me, I will not go

I can't take the way you take away from me
It's three steps forward, ten steps back to me
I can't change, change a single thing about me
And even if I could only,
You'll never love me
I'll stay the same me
This bull rides tonight

Your friends say that you should just run
We're holding our ground till we're done
Some dark, sick obsession
With life's cold, hard lessons
Why can't I just give up?
Why can't I just give up?
Why can't I just...

Change, change everything about me
Even if I could only
You'll never love me
I'll stay the same me
I must change, change everything about me
Even if I could only
You'll never love me
I'll stay the same me
This bull rides tonight
