

# I Want to Wanna Wake Up

Huntress

I have dreams of what I used to be  
Lifetimes fail and fall  
I always leave them all behind

I'm in pain but I hurt you worse  
Save yourself from me, stop the torture and deceit

Since the day I was born, I transform

I'm packing it up  
I want to wanna wake up  
Bound to the trouble that I've made  
I want to wanna wake up  
I can't get away

Years drift by and I forget  
How to play the game  
I will find another name

No regrets, I want revenge on my head

I'm packing it up  
I want to wanna wake up  
Bound to the trouble that I've made  
I want to wanna wake up  
I can't get away

Shaft-shifting life away  
Mutations and the sadness turning brings  
I want to wanna wake up

I'm in pain but I hurt you worse  
Save yourself from me, end the torture finally

Since the day I was born, I transform

I'm packing it up  
I want to wanna wake up  
Bound to the trouble that I've made  
I want to wanna wake up  
I can't get away

Shaft-shifting life away  
Mutations and the sadness turning brings  
I want to wanna wake up
