Hunxho

That global high

I couldn't go nowhere, I remember I was broke  
Now this shit here on the floor, we havin' pape' like we sell d  
ope  
I make a million in a month, shit, that's a hundred K a show  
Yeah, I stick to myself, I can't be part of that  
I'm geeked in this Jeep and this bitch beat, nothin' like a hea  
rt attack  
When this shit get deep, I get on feet, somethin' like a quarte  
rback  
Nigga play, I wrap a rapper up, like where yo' artist at?  
Nigga play, they'll wrap a rapper, all my youngins wildin'  
Nigga play, I'm playin' with that stick just like a violin  
Most of all my niggas done caught cases, they all violent  
We'll take it there with like whoever, ain't nothin' tied in  
Tryna tell 41 get out that field, he like a tight end  
Know my brother nem'll never leave me like my right hand  
Brother geeked up, walkin' on the moon, somethin' like that Mik  
e dance  
No, I'll never tell this shit, on Dre, got shit I'm not sayin'  
Shootouts in my car, can't go wrong, this shit get brazy  
I know he won't fold 'cause I done rocked out with lil' Bryson  
I'm the one who run shit down, won't hear no nigga chase me  
I still be alive, I go to jail, can't let 'em take me  
Cash rule everything around me and pralines  
It's like it ain't nothin' that I do private, I'm on Say Cheese  
Judge, I ain't mean that, that's what I did, no nigga made me  
Blood on blood is what them niggas shed, them niggas play me

I put the blues on the seat, but I'm bloody  
I don't need nothin', that don't mean nothin'  
Same clothes, four days straight, I'm still thuggin'  
I'm still clutchin', I don't do tustlin'  
I don't need nothin', G12 flushin'  
I'm gettin' money, my heart still pumpin'  
I done made some millions, but I'm still hustlin'  
I done made some millions, I barely do clubbin'  
I got stars in the ceiling, can barely see the sun  
Talkin' 'bout cars, got too many, can barely choose one  
Put a bird in my engine, she ain't seein' nothin'  
Fuck her, fuck her head up like a concussion (Concussion)
