

Don't Let Me Down

Hunxho

Oh
Oh (Don't let me down, no, no, no, no)
Oh
Uh

And don't
Don't let me down
Just stick around
Let's settle down
Baby, don't
Don't let me down
Just stick around, my love
And settle down, my love
Yeah, won't
Won't let you down
I'll be around
Let's settle down, baby

Calling forever
Give my heart for the better
Get my heart out the ghetto
So hard, I won't let up
If I fall, help me get up
God still here with us
My love can't forget her
My love still with her

Don't let me down
Just stick around
Let's settle down
Baby, don't
Don't let me down
Just stick around, my love
And settle down, my love
Baby, oh
Won't let you down, no
I'll be around, baby
Let's settle down, baby

Honestly
I don't know how to decipher between your lies
'Cause everything that you tell me, it seems so right
But maybe I just need a different kind of guy
But I see the growth in you, I cannot lie
But maybe it's wrong, maybe it's just the wrong time
But, baby, all that I ask you is don't

Don't let me down
Just stick around
Let's settle down
Baby, don't
Don't let me down
Just stick around, my love
And settle down, my love
Baby, oh
Won't let you down, no
I'll be around, baby

Let's settle down, baby
