

## Going

Hunxho

Hey, it's me, haha, I know you been waiting on this, I just- (Hossy)  
When I think about everything and I think about us, and then I start  
thinking about you, I just-

You make me forget about reality every time I'm with you (Hossy)

And when I think about It, I escape to that place

We been goin' and goin' and goin' (Goin', and goin' and goin')

Know I'm on what she on, what we doing? (What we doing? What we doing  
? What we doing?)

Huh, what I'm doing, they ain't doing, you been glowin' (Glowin', glo  
win', glowin')

She been all in, she ball like Jordan (Jordan, Jordan, Jordan)

Yeah, I met this shorty and knew straight away she was special too

Gorgeous inside and out, I stare when she's passing through

Always flies out abroad, Fiji or Guatalu

Started off with Patron, now she sips '42

Saw you out on that rooftop, I don't know how I would speak to you

Took a couple shots of Jack, 'cause yeah, I think I needed too

Was moving like I was nervous when I knew what I could do for you

Always had that screw face, but was goofy when I spoke to you

Asked you about your past and your future and what you did for cash

You said you're a makeup artist and I should check your Instagram (Ho  
ssy)

Took your phone and put my number, said I need to see you soon

You laughed and gave me a smile and asked where am I'm taking you to  
(She's teeking off)

We been goin' and goin' and goin' (Goin', and goin' and goin')

Know I'm on what she on, what we doing? (What we doing? What we doing  
? What we doing?)

Huh, what I'm doing, they ain't doing, you been glowin' (Glowin', glo  
win', glowin')

She been all in, she ball like Jordan (Jordan, Jordan, Jordan)

(It's lingerie)

I've got a fetish for fucking you with your skirt still on

Told me you could hack it when I was doggy and you was jumping off

Body figure eight, I had to tear it up when I saw you naked

Can't make this up, her curves Colombian but her mom's Jamaican

Supposed to hit you once, but here I am still checking you

We ain't even exclusive, I still call up and check on you

I told the guys I'm moving mad like I ain't seen your type before

The way you always hold yourself just makes me want to hit you raw

But we ain't gotta go too fast, if you want, we'll take it slow

We ain't gotta go too far, if you want we'll hit the roads (Hossy)

We ain't gotta go for drinks, if you want, we'll hit the shows

If you hold me down I'll hold you down too like an anchor float Just  
let me know

We been goin' and goin' and goin' (Goin', and goin' and goin')

Know I'm on what she on, what we doing? (What we doing? What we doing

? What we doing?)

Huh, what I'm doing they ain't doing, you been glowin' (Glowin', glow in', glowin')

She been all in, she ball like Jordan (Jordan, Jordan, Jordan)
