

If Only

Hunxho

Look at your face card, fine on the wake up
You the type to do a lot, but never say much
You remind me of a goddess, praise up
If you call me, I come speedin', race car
Lot of attractions in the world, but you the main one
I'm tired of callin' you my baby, can we make one?
I'll forever be around with baby, day one
There since day one
It's like God made you to look good without makeup
Feel like I owe you the world and I'll pay up
I can look at you forever, I'll stay up
And baby, I can't die without you, I'll stay old

Woah-woah, woah-woah, I'll stay old
Woah-woah, woah-woah, I'll stay older
I'll stay old
Woah-woah, woah-woah, I'll stay older
Only if I head to the mornin' with you, you feel so important
Only if I had one chance to show you, ain't nothin' 'bout me normal
Anytime I get the chance, I tell you, baby, you so gorgeous
Only if I had the chance to show you, with me, you'll enjoy it
Only if you took the time to see, nothin' small 'bout me, I'm enormous

Yeah
Ain't no pullin' out, she told me keep it in
I done fell in love with the cheetah print
We just had a baby and we fuckin' for them six weeks up
So we goin' back to back, girl, we keepin' it
He took you shoppin' once, I got a fleet of it
I give you tender love and care, so let me creep in it
Lickin' on your ear, then I might speak in it
Slow stroke and I make sure you reach your peak in it
Lookin' in your eyes, I can feel the vibe
I went raw the first night, now we soul tied
Introduce you to my family, both sides
Body, teeth, face pretty, but you so shy
I enjoy it when we go out on them long rides
Bae, you know I got my gun, I'm from the Eastside
Put a AP on your wrist, so you can't cheat time
I can't give her to the streets, I'ma keep mine

Only if I head to the mornin' with you, you feel so important
Only if I had one chance to show you, ain't nothin' 'bout me normal
Anytime I get the chance, I tell you, baby, you so gorgeous
Only if I had the chance to show you, with me, you'll enjoy it
