

# Not Lying

Hunxho

Huh

Goin' to jail helped me find patience with myself  
Ain't feel like waitin' on myself or nobody else  
Don't need nobody help  
Can't put my pride to the side, do it all myself  
On Dre, that shit there killed me, I don't know how I'm still livin'  
And I pray the Lord forgive me, but I'm like God inside these trenches, God  
Xho, how you get money, but still let all of your young niggas rob? Yeah  
'Cause I can't say that I made it, I ain't there  
Do they hate me? Should I care?  
'Cause they don't check on me, ain't worried 'bout nobody but theyself, aw  
And I done fell a hundred times, but never fell off  
And lately, I been wearin' condoms, but I'm still raw, dog  
Can't never get stuck in the middle, I know I'm a winner  
A shooter be drivin' in all of my cars, if any nigga play, they'll end 'em  
I don't like talkin' 'bout beefin' on songs, but all of my opps tryna spin 'em  
Know I done been in that jam, shit, I know how to get out that blender, yeah  
I put everything on Brenda, six, no I ain't just a pretender, yeah  
They could have a hundred hands, shit, I know they still wouldn't lend 'em  
If you know me, you know I'm a dog, shit, you know I belong in a kennel  
If you know me, you know all my cars bought, ain't none of these bitches a rental  
Woah, wait, I wake up and get more pape'  
Can't believe that I'm so paid  
Most of these bitches I'm fuckin' go both ways  
Now I make me a million in four days  
You live by the gun and you die by the gun  
I don't see me dyin' from old age  
I get a hundred a show, I used to rob for 4K, yeah, yeah  
Huh, I been goin' hard, can't say I'm not tryin'  
She jump when I say so, she not Zion  
Yeah, made it up outta the jungle and, nigga, I'm not lyin'

I tried to come into this world feet first, so God saved my life before it even started  
I was blessed with the guidance of my father's wisdom and the love of an understanding mother's heart  
I was taught the value of respect for self and others in a world where this has become luxury  
All the things that I complained I didn't have, I know now that was really more than enough for me  
Some kids don't have food in they bellies, clothes on they backs, or a bed to even sleep at night  
Often, we don't see the things we should be thankful for until we suffer through enough to make us see the light  
For a people to be displaced and enslaved, robbed of their culture, God, and stripped of their identity  
And after generations gone by, forced to live amongst and be dependent on the enemy  
Put into situations where survival is through hard choices and then judged as if they ever had an equal chance  
Brutalized by the ones that should protect us, and they say that our society is civilized and more advanced  
The fact that I can send this message to you now proves without a doubt that miracles can still happen for us

We gon' overcome the obstacles we're facing now, no matter what the adversar  
y does, he cannot destroy us  
All the murders and the drugs and the prison ever has done or will do is was  
te our lives  
We will transcend this darkness and not only just survive, but I guarantee w  
e rise  
Above the putrid stench of death and evil deeds  
Above the hatred and not caring for each other's needs  
We can change it all starting with our hearts and minds  
Because as long as we draw breath, we still got time  
Thank God
