Hunxho

(ThisABeats, boy)
(Zan Muzik)

Yeah, you told me stay down 'til I come up, you don't tell nobody else
I ain't selfish like you is, you ain't help nobody up
Why my nigga still here with you, everybody left
They like to walk outside with boots (Why?), 'cause everybody step (Cry)
All night by myself (Grind), need nobody help (Slide)
If they drop the deets, go slide, this give me a different vibe
Walk down, I stand on top of him, it ain't no self-revive
I heard my bitch was topping him, bitch what, you think I cried ?

Bitch what, you think I care?
Bitch, you ain't even know I smashed your friend, bitch, you ain't even know she slimed
They don't even love you 'til you dead, but they don't even know I died
All on the inside
I just been going with emotions, I don't even feel alive
I know my words is powerful, please forgive me, God
I never worked a job, a nigga played and I had fired
I let go that switch, I ftt again and niggas dying
Fft again, that's overtime
[?] tryna lay shit down
Still on an island
Niggas can't even come, we vibing
[?] still tryna catch him a body
Free dog from on the [?]
Free dog for keep it silent
I'm tired, nigga, still free [?]
I'm tired, nigga, still free C
