

What I Need

Hunxho

Most of the time
Let's talk about love
Well, let's talk about love
You know it's yours

What's up with us? It's never us 'cause it just all me
It's always you, you never care about what I need
Like fuck love, back to the streets where you found me
You ain't no better, you just like the ones who doubt me, you k
now what I mean?
It's only you, you never care about what I need
You know what I mean?
I go and get it, never ask for help when I need

She need sex, I need money
She need help, I don't need nothin'
Ridin' through my bity, BP, I'm still clutchin'
Yeah, I know my mama need me, I'm still thuggin'
And any time they ever leave me, you still fuckin', oh, yeah, y
eah, yeah
Fuck her 'til she cum again
Money still bombin' in, my brother still runnin', man
Pray for every time I sin, know what I mean?
I'm tryna get to Heaven, but my car still Demon
Walk by faith, why I feel like I'm still dreamin'?
All 'em hatin', they try to hide it, but I seen it
I can't fuck everybody here, this million-dollar semen
I gotta watch my back 'cause I know niggas still schemin'
I know I told you fuck you, Lord knows that I ain't mean it
White wrist, but my rose gold still blingin'
When I diss, make 'em disappear, Houdini
Icy, I done put a house on my pinky, oh

What's up with us? It's never us 'cause it just all me
It's always you, you never care about what I need
Like fuck love, back to the streets where you found me
You ain't no better, you just like the ones who doubt me, you k
now what I mean?
It's only you, you never care about what I need
You know what I mean?
I go and get it, never ask for help when I need
