

## Bleed For Me

Hurricane

Bleed for me believe in you

Close your eyes and take a look at me  
You're too blind for what you wanna see  
Dark and red's the place you need to go  
Take the knife and plunge it in real slow  
I'll return again someday tear the skin and bone away  
I'll return and take what's mine

It's not hard to let it all run free  
Wet and warm while you lie next to me  
Easy sleep the seconds linger on  
Now you know your body's really gone  
I'll return again someday tear the skin and bone away  
I'll return and take what's mine

If you bleed for me I'll believe in you  
Reach in your black soul and take my time  
If you bleed for me I'll believe in you  
It's your final day make me believe believe in you  
If you bleed for me I'll believe in you

Reach in your black soul and take my time  
If you bleed for me I'll believe in you  
It's your final day make me believe believe in you
