

Magic Night

Hurricane

Through a glass
You saw me through a glass door
Speak to me, tell me what you need
Shoot me up, I'm a diamond, light it up
Put me under and around the only one

Oh, you're my shining star
Oh, and I'm so bright above
Oh, don't keep me hiding 'cause
You're, you're my magic night

Magic, my magic
You're my magic night
Magic, my magic
You're my magic night

Twist and turns
Lullabys and heavy chains
I'm running wild
Pin me, hold me down
Cruising through this night filled with lust
You're the poison and my mind can't get enough
Magic spells, cast me some crazy spells
We're the one demanding
We were not set to fail
I don't know where to start it
You tell me how to love
Swipe me off my feet
All again

Oh, you're my shining star
Oh, and I'm so bright above
Oh, don't keep me hiding 'cause
You're, you're my magic night

Magic, my magic
You're my magic night
Magic, my magic
You're my magic night

Blow some magic in the air
This love is way too toxic
Exotic, love just
(You're my magic night)

Magic, my magic
You're my magic night
Magic, my magic
You're my magic night
