

# Shine

# Hurricane

Life can deal you a lousy hand  
And again it seems this one's been dealt to you  
You tell yourself tomorrow's another day  
But what will change what could make it go your way  
Nowhere left to turn no one hears you scream you turn and run  
Get it and fight don't give in stand up to the social machine  
You've got a mind of your own so believe in yourself  
If you give it a chance you will show that you can shine shine  
So many times I tried and failed to fit in  
No kind words to lighten my soul  
I have my hopes I have my dreams I try to reach  
My peace seems so far away  
Soon my rage and anger will find a new playmate your turn a gun  
Give it a fight don't give in stand up to the social machine  
You've got a mind all your own so believe in yourself  
Give your future a chance hold on and you can shine shine  
You know you can't give in  
Give it a fight don't give in stand up to the social machine  
You've got a mind all your own so believe in yourself  
Give your future a chance hold on and you can shine shine  
Your words are your weapons fulled by your mind  
Go to school on your fears and leave them all behind shine  
Yeah violence and guns small man's clout  
Only dig you deeper you'll never get out yeah shine
