

# Shout

## Hurricane

I've read enough  
I've seen and heard  
Damn but it blows my mind  
You can close your eyes  
To compromise  
And then just walk the line

So you think you're tough  
That ain't enough  
If you don't let them know

You gotta  
Shout  
Out to the world  
It's the only way  
Shout  
Tell it to the world  
Don't let anyone stand in your way

I take the heat  
Out on the street  
To say what's on my mind  
You change the words  
It should be heard  
Just let them fall in line

Well you think you're tough  
That ain't enough  
You've got to let them know

Shout  
Out to the world  
It's the only way  
Shout  
Tell it to the world  
Don't let anyone stand in your way

Shout  
Out to the world  
It's the only way  
Shout  
Tell it to the world  
Don't let them get away

If you stand strong together  
Back them up to the wall  
We can show them mercy  
Or you can try and fight all

We are the people  
The choice is ours to make  
C'mon on, sing it loud and proud  
I want time to wait

Shout  
Out to the world  
It's the only way

Shout  
Tell it to the world

Oh!

Shout  
Shout

Shout  
Out to the world  
It's the only way  
Shout  
Tell it to the world  
Don't let anyone stand in your way

Shout  
Out to the world  
It's the only way  
Shout  
Tell it to the world  
Don't let anyone stand in your way
