

Temptation

Hurricane

Won't you leave me alone
I've got someone else
This is no good for me
And I should go home
I keep tellin' myself
But what can I do
And now you come to me
I say oh no
You got me paralyzed
I can't go
One kiss and I know
We're in too deep
And so I say

Take my heart and run
'Cuase I can't resist
Temptation
Her love is like a loaded gun
And I can't resist
Temptation

I call an S.O.S.
My heart is under attack
But it's too late for me
Wearin' that smile
And lookin' like that
I can't break free
You're daddy's little girl
Oh no
You're mama's fallen angel
Can't say no
You may have what I want
But you're not what I need
I tell myself
You got me paralyzed
And I'm down on my knees
