

Numb

Hurts

I breathe
I breathe again
My mind
Is set to stun again
And make you dull again

Not all of my scars are visible
Not all of my thoughts are pitiful
My exaltation's chemical, uh
I know that I'm stuck inside rut
But now that I've taken twice as much, oh oh yeah

I just feel nothing at all
And I'm not stopping till I detach from you
I just feel nothing at all
And I'm not stopping till I detach from you
Uh
I'm numb

I breathe
I breathe again
I need to find some release
Until the fever ends
And I slip away again

Not all of my scars are visible
Not all of my pain is physical
This apathy is beautiful, uh

I just feel nothing at all
And I'm not stopping till I detach from you
I just feel nothing at all
And I'm not stopping till I detach from you
I'm so numb

I'm numb

(Numb)

I just feel nothing at all
And I'm not stopping till I detach from you
I just feel nothing at all
And I'm not stopping till I detach from you
I'm so numb

(And I'm not stopping till I detach from you
Now I feel nothing at all
And I'm not stopping till I detach from you
I'm so numb)
