## Hurts

Say my name  
And save me once again  
Just say my name  
Too far gone  
Is this where I belong?  
Am I too far gone?

I can hear them in my head and I  
I can hear them and I want to get 'em out  
I can hear them in my head  
Getting louder now

So endlessly  
These voices keep on calling me to rise  
These voices keep on  
Praying for me  
These voices keep on  
Praying for me  
I can't stop them now

Each step I take  
I make the same mistake  
But they scream my name  
And I know it's wrong  
To keep marching on and on  
But I'm too far gone

I can hear them in my head and I  
I can hear them and I want to get 'em out  
I can hear them in my head  
Getting louder now

So endlessly  
These voices keep on calling me to rise  
These voices keep on  
Praying for me  
These voices keep on  
Praying for me  
I can't stop them now

I keep hearing them  
Hearing them come  
Hearing them  
Voices  
Keep hearing them  
Hearing them come  
Hearing them  
Voices  
Keep hearing them  
Hearing them come  
Hearing them  
Voices  
Keep hearing them  
Hearing them come  
Hearing them  
Voices

I heard them say  
I heard them say  
I can't stop them now

I can hear them in my head and I  
(I can't stop them now)  
I can hear them and I want to get them out  
I can hear them in my head  
Getting louder now

So endlessly  
These voices keep on calling me to rise  
These voices keep on  
Praying for me  
These voices keep on  
Praying for me  
I can't stop them now

I can't stop them now
