

## Fever Dreams

Huskii

I can't make her real  
She's just a dream I have  
I can't make her real  
She's just a dream I have

I can't make her real  
She's just a dream I have  
I can't make her real  
She's just a dream I have  
I can't make her real  
She's just a dream I have  
I can't make her real  
She's just a dream I have

I live off cigarettes and old photos of you  
Drinkin' wine, thinkin' why I ain't told you the truth  
Got no excuse to not control what I do  
I don't know how all these mind games make me closer to you  
I can't sleep no more, I keep seein' your ghost in my room  
Just a myth that I made up, I've never known the real you  
Persian rugs, on my own in the booth  
Wanna quit rappin' but that's how all my emotions come through  
I keep manifestin' destinies that's breakin' my heart  
I self-sabotage for the sake of my art  
I build our home and then I take it apart  
How nobody's seemed to notice I've been fakin' my laugh  
Jack Dan's hit, I've been sippin' straight from the flask  
Maybe I'll last, maybe I won't, but it's crazy to ask  
I bite her neck, she stick the stake in my heart  
Survivor's guilt, I never thought I'd ever make it this far

I can't make her real  
She's just a dream I have  
I feel these scars  
But still take everything I have  
I can't make her real  
She's just a dream I have  
I feel these scars  
But still take everything I have

I can't make her real  
She's just a dream I have  
I feel these scars  
But still take everything I have  
I can't make her real  
She's just a dream I have  
I feel these scars  
But still take everything I have

I can't make her real  
She's just a dream I have  
I can't make her real  
She's just a dream I have  
I can't make her real  
She's just a dream I have  
I can't make her real  
She's just a dream I have

I can't make her real  
She's just a dream I have  
I feel these scars  
But still take everything I have  
I can't make her real  
She's just a dream I have  
I feel these scars  
But still take everything I have
