

# Road

Hwasa

Big wide road, the one I'm meant to take  
Peace of mind won't keep me on the run  
In the open sky, you flee or fly, I'll find my own  
You remind me I'll feel unknown, I know

You want my history  
That's the thing, you won't let go  
Oh, you're worried, but I'm not  
I'ma take the long road

What to do, I'll just drive, all night  
Headlights, ain't that bright  
Such a blur but I just drive, all night  
That's life, 'til the lights are gone

Small town roads  
These streets don't have no names  
Take my own if you ain't keepin' me sane, yeah

You want my history  
That's the thing, you won't let go  
Oh, you're worried, but I'm not  
I'ma take the long road

What to do, I'll just drive, all night  
Headlights, ain't that bright  
Such a blur but I just drive, all night  
That's life, 'til the lights are gone

Don't wanna wait all day  
I don't care what it takes wanna hear you say  
I'm gonna be okay  
'Bouta pour another glass for the good old days  
Hold on for god's sake  
If you're looking for me then you better pray  
Lonesome in a maze  
And I'm stomping to the rhythm 'til you walk my way

Let 'em know, I'm not going back  
But if you wanna follow, you know how to find me
