

Blind Side

Hybrid

Your mother's eyes Set in stone On a face so young Your blacken
ed heart speaks to me So silently

When you fell from grace Who took your place And left you alone
You're looking like shit to me And far from home

You're tired of this place Of things that you cannot face I lov
e your faithless kiss But please don't leave me alone like this

Running away, running away You know you've got to find yourself
somebody someday Take it away, you take it away There's nothin
g that I can do You're always drifting

Turning away, turning away You like to think of yourself as a l
ittle bit different Maybe you're dreaming But you died inside

You're tired of this place Of things that you cannot face I lov
e your faithless kiss But please don't leave me alone like this

Behind the door Left alone With a mind undone And in your eyes
So much to hide But I'm standing on your blind side

I remember when You showed me how But just look at you now A fa
ithless kiss It's come to this Oblivion

You're tired of this place Of things that you cannot face I lov
e your faithless kiss I love your faithless kiss

You're tired of this place Of things that you cannot face I lov
e your faithless kiss But please don't leave me alone like this
