

# Can You Hear Me

Hybrid

Tear down these walls  
Cut the ties that held me  
Crying out at the top of my voice  
Tell me now if you can hear me...

I'm awake today  
I've got something to say  
Can you hear me now?

You'd better make way  
I've got something to say  
Can you hear me now?  
Can you hear me now?

I'm awake today  
I've got something to say  
Can you hear me now?

No need to obey  
I've got something to say  
Can you hear me now?  
Can you hear me now?  
Can you hear me now?

Can you hear me now?
