

# Falling Down

Hybrid

(may contain errors)

Open my eyes  
But I can't see where you are  
Put out my hands  
But I can't reach that far

Holding you in  
The taste is still on my lips  
The need to feel  
Close touch fingertips

Like rivers  
We all run into the sea  
I can hear them  
The waves are crashing on me

Tumbling tumbling  
Tumbling tumbling  
We move things too slow

Tumbling tumbling  
Tumbling tumbling  
We'll be like the fall

Tumbling tumbling  
We move things too slow

Tumbling tumbling  
We'll be like the fall

I'm falling down  
Falling through oceans of the past  
Only fallen angels sing this loud

Land on my face  
I write only for you  
Please understand the words  
I need you to

I'm not allowed to read  
The secrets inside  
It all starts here  
With no end in sight

If only you'd catch me  
Safe in your arms  
Your love would show  
Guiding me down

Tumbling, tumbling  
We move things too slow

Tumbling tumbling  
We'll be like the fall

I'm falling down

Falling through oceans of the past  
Only fallen angels sing this loud

Tumbling, tumbling...

Tumbling, tumbling  
We move things too slow

Tumbling tumbling  
We'll be like the fall

I'm falling down  
Falling through oceans of the past  
Only fallen angels sing this loud

Falling down  
Over and over
