

Believe

Hydria

I think you know we might be better on our own
You said we've lost it all
And I know the time won't wait
To see our world just crashing down

I've spent my life believing someday I could be somebody
And you made me sure about it

[CHORUS]

I won't stop trying, our dreams are coming true
Believe in me, you got to believe
And we'll stand, and we'll fall
And we'll go through it all
Believe in us, in you and me
Oh, just in you and me

(Who knows what is like to be apart of the world that we've created)

We see it in the streets everyday
Now I know what is like to have my hands and my mind unbounded
We have a thousand things to share

I've spent my life believing someday I could be somebody
And you made me so much better

[CHORUS]

[CHORUS]
