

# The Memory Song

Hydria

As you lay in bed  
I watch you pray  
And hope you know I'm right there

Going down down, when you're going down down  
Just remember good times  
Just remember my smile  
Going down down, when you're feeling down down  
Don't you ever lose the chance  
To stand up and smile again

[ CHORUS ]  
I'm your memory now  
When you miss me around  
Remember me (remember my love)  
I won't go away  
When your days turn to grey  
Remember me

As you make your way  
I make my prayer  
While watching your every step

Going down down, when you're going down down  
Just remember good times  
Just remember my smile  
Going down down, when you're feeling down down  
Don't you ever lose the chance  
To stand up and smile again

[ CHORUS ]

[ CHORUS ]
