

## Work In Progress

Hyland

Who did you think you'd be?  
With all of this competition.

You did your best to believe  
And invest in your best intentions

There's a masterpiece within the mess  
Give it all you've got, cause this ain't over yet

Three steps forward, two steps back  
Is still one more step than you used to have  
Looking up, learning from the past  
You know that you're growing  
You're a work in progress

It hurt to watch them leave  
Loneliness is a common killer

You'll make your mark you'll see  
Bide your time I know you're the victor

Put one foot in front of the other, one step at a time  
You're not alone out here on your own. And you'll be just fine.
