

The Delorean

Hyper Crush

Uh,
Back to the future
Who's to blame
Dude, that fool's insane
The slingshot tucked in the back of his pocket
God knows you had to jock it
Dude just stopped it, pocket swollen
What's the Delorean
Cops patrollin'

Shh... get down man
Look in the rearview. See him in the rearview?

Me and Preston steady grindin'
Tryna get the paper gems and diamonds
Catch me rockin' solid ropes
The best duo since Hall and Oates
Wake up in the mornin' mad and cussed and pour myself come captain crunch th
en I'm gone
And I'm off to the next case
All you fools are sorta lame
I'm chillin' in the club with Corey Hand
If looks could kill I'm a twelve-gauge shotgun
The Delorean, yeah I got one
Peace, matter of fact you're fired
But I don't work for you
Oh that's right
Well if you need a job just give me a call from
Nine to five, I'll be chillin' at the mal
Bitch

Ooh, I like your ride
Can we go back in time
Computers in my mind
It happens all the time
I like your ride
Can we go back in time
Computers in my mind,
The Delorean

(The Delorean)
Just push
(The Delorean)
Just rock
(The Delorean)
Just push
(The Delorean)
Just rock
(The Delorean)
Just push
(The Delorean)
Just rock
(The Delorean)
Just push
(The Delorean)
Just rock

LA gowns and starter caps
Donny Fontaine's hard to match
The hottest shit you've ever heard,
Oh snap the revenge of the nerds
On the one-way path to control the world,
Well, that and to bone your girl
Listen people, shit is movin'
More than man I'm superhuman
Poppin' lockin' rock and rollin'
Super soaker locked and loaded
Stop, you fools are moded
Not, but I had you goin'

Nintendo robo cop
Pass me the Nerf I'm goin' long
Sike, I'll catch you later
Stupid fresh and fuck you haters
Me and Preston drunk in Vegas
Tryna get some girlies drunk and horny
So we can stay up 'til the early morning, leave,
And never call back
You can catch me drunk and stupid
Push the deloran, bump this music

Uh, uh huh.

Ooh, I like your ride
Can we go back in time
Computers in my mind
It happens all the time
I like your ride
Can we go back in time
Computers in my mind,
The Delorean
