

I'm going crazy, light it up
People be like what the fuck?
It's just the liquor on my tongue
We got a spaceship in the club
People be like what the fuck?
We came to tear this party up
Party up, party up, party up, up, up, up

What w-w-w-we came to tear this party up
Party up, party up, party up, up, up, up
What w-w-w-we came to tear this party up

Check one two
This what we came to do
We came to rush the booth
And set this party lose
Turn the speakers to eleven
Cause music is the weapon
Hyper crush is what I'm reppin
Now errbody steppin
Like step st-st-steppin
Like errbody steppin
Like rock your body
Get lose everybody
Don't stop the party
We bout to get it started go
Rock your body
Get lose everybody
Don't stop the party
We (9x)

I'm going crazy, light it up
People be like what the fuck?
It's just the liquor on my tongue
We got a spaceship in the club
People be like what the fuck?
We came to tear this party up
Party up, party up, party up, up, up, up

Going back to the future
I soak em' with my super bass
That's how we do it
Gettin foolish in this place
Yeah it's hard work everyday
Party the night away
Getting drunk,
Rock a show,
Eat then I gotta go
Spaceship in the club

Rock your body
Get lose everybody
Don't stop the party
We bout to get it started go
Rock your body
Get lose everybody
Don't stop the party
We bout to get it started
Light it up (15x)
