

Take Me Away (Alien Spaceship)

Hypnogaja

See these pictures on tv.
telling me what to believe.
hear these voices everyday.
telling you what to think and what to say. I wanna be beyond the reach of men.
I want to go away to another land. Wish i could escape to another place.
but there's nowhere to go but outer space. Alien spaceship take me away, take me away.
alien spaceship take me away. (take me away) x2 Sometimes i feel like i'm an alien.
don't know where to start, don't know where i've been.
sometimes i feel like i don't belong.
don't know what's right don't know what's wrong. I don't want to be a part of this human race.

I want to be in another place. Wish i could disappear without a trace.
but there's nowhere to go but outer space Alien spaceship take me away, take me away.
alien spaceship take me away. (take me away) x2 So much pollution and so much waste.
so much confusion and so much haste.
ain't no justice in this place.
ain't no smile on gods face.
this society is a fucking disgrace.
this planet's one big fat rat race.
bet there's no rats in outer space.
I wish something would come and take me away. Alien spaceship take me away. x7
take me away.
