## Hypocrisy

Aaahh!  
Shredding apart with the knife  
Waiting for death  
Cutting my veins wide open  
Free from the lie  
I am ripping it from my head  
Living my life like the end is here  
I can't take it

Tonight we are gonna pay  
Suicide never felt so good  
Dripping blood from my head  
I'll never fail to die  
Look and you'll know why

I'll recover and strike  
I can't see the light  
Lord, hallucinations appear  
My omen, God, the angels of vindication

???  
I am in this world  
I can't expose my soul  
???  
I'm ending this life  
Ready for vengefull God  
Now

It's a big fuckin' lie  
It's the other side  
Blow your fuckin' mind  
With bullshit lies  
Listen and decide  
When you're fuckin' dead  
Cheering on the war  
Face to face with the devil

Tonight we are gonna pay  
Suicide never felt so good  
Dripping blood from my head  
I'll never fail to die  
Look and you'll know why

I'll recover and strike  
I can't see the light  
Lord, hallucinations appear  
My omen, God, the angels of vindication

???  
I am in this world  
I can't expose myself  
???  
I'm ending this life  
Ready for vengefull God
