

# We're the Walking Dead

## Hypocrisy

How long can you hold your breath?  
When the acid rain keeps falling from the sky  
It's just another day in paradise  
Take your time and close your eyes

Feel your body aching as you try to breathe  
Chemicals that spreads through your flesh  
We're drowning in chaos  
Take your time, 'cause we all will fry

We're the walking dead  
We're living the dream in paradise  
We're the walking dead  
Programmed to obey  
Programmed to die

Nothing's for free, but greed and misery  
Anything you want can be bought  
Radiation is just another part of your life  
Take your time and look around, it's coming for you

We're the walking dead  
We're living the dream in paradise  
We're the walking dead  
Programmed to obey  
Programmed to die

Brainwashed, lobotomized  
Makes the perfect citizen-suicide  
Sterilized, tranquilized  
We have no rights, we're in the dark

We're the walking dead  
We're living the dream in paradise  
We're the walking dead  
Programmed to obey  
Programmed to die
