

# Kids Against The Monsters

**Hyro The Hero**

It's just us against the big machine  
They spoil the soil we on won't grow to trees  
Roses growing out of that concrete  
But they just wanna keep us underneath  
They thinking that we  
Robots for the economy  
Raised by technology  
Using reverse psychology  
And give us no apology  
Another day, another way to put us down  
Turn our smile to a frown

Cause we're just kids against the monsters  
Throw us away like they don't want us  
Cause we're just kids against the monster  
Against the monsters  
Cause we're just kids against the monsters  
Throw us away like they don't want us  
Cause we're just kids against the monster  
Against the monsters

Is it our skin color  
Is it our income  
Is it where we from  
Or is it cause we young  
Older generations tryna blame us  
But we the ones out here making changes  
They might be giants but we fighting cause we had enough  
You point a finger but three fingers pointing back at ya  
Another day, another way to put us down  
You can't turn our smile to a frown

Cause we're just kids against the monsters  
Throw us away like they don't want us  
Cause we're just kids against the monster  
Against the monsters  
Cause we're just kids against the monsters  
Throw us away like they don't want us  
Cause we're just kids against the monster  
Against the monsters

We go against goliaths on a daily basis  
Struggles we facing caused from the past generations  
And we the ones they blamin', it's up to us to change it  
I'm just saying

Cause we're just kids against the monsters  
Throw us away like they don't want us  
Cause we're just kids against the monster  
Against the monsters  
Cause we're just kids against the monsters  
Throw us away like they don't want us  
Cause we're just kids against the monster  
Against the monsters
