The way to you
I'm the way to you
Way to you

Each ordinary day
Was stacking up without much meaning
But ever since I took a step toward you
Everyday became so special

Like the wind that passes through
I just want to stay
In your big world

Suddenly, all of my direction on my path is to you
Like this, the end of my path is only you

Again today, the way to you, the way to you, the way to you
Again today, the way to you, the way to you, the way to you

Even when I look at you without much reason
Everything became so special

Like a cloud floating in the sky
I just want to stay

In your big world

Sometimes, when things get hard, you can lean on me
Without change, I'll always look to you

The way to you
I'm the way to you
Way to you
