

# Glue

Hyukoh

Another way you're going  
Another way you smile  
I thought that I could be the one  
You're my paradise

I love the way you move now  
I love the way you smile  
I thought that I could be the one  
Always stick to you

Time after time  
Tide after tide  
Blue knot is falling  
I was holding on for you

Waiting is long  
Moment was short  
Blue knot is falling  
I was holding on for you

Another day has gone by  
Tables, they turn sometimes  
I thought that I could be the one  
You're my paradise

Another love is done now  
I'm rubber, you're glue  
I thought that I could be the one  
Time to say goodbye

Time after time  
Tide after tide  
Blue knot is falling  
I was holding on for you

Waiting is long  
Moment was short  
Blue knot is falling  
I was holding on for you

Time after time  
Tide after tide  
Blue knot is falling  
I was holding on for you

I see you love me, yes, you do  
I see I love you, yes, I do  
I see you see me, yes, I do  
I see you love me, yes, you do, do

I see you love me, yes, you do, do  
I see I love you, yes, I do  
I see you love me, yes, you do, do  
I see I love you (Why don't you?)
