

Settled Down

Hyukoh

Maybe someday you'll be there
I will find you on my way
Keep doing things that way
Or leave me alone
Keep doing things that way
Or leave me alone

Perhaps you were gonna let me down
They all know your fake display effort
I'm falling down and down
And getting low and low
There far too many answers
Floating around

At the least you just give it a try
At the least you don't tell me a lie
At the least you try keeping your word
At the least you could think of me once
No one say it possible at all

Perhaps you were gonna let me down
They all know your fake display effort
I'm falling down and down
And getting low and low
There far too many answers
Floating around

At the least you just give it a try
At the least you don't tell me a lie
At the least you try keeping your word
At the least you could think of me once
No one say it possible at all
