When can I see you?
Why are you so busy?
(More more more) I hope today passes by quick baby
When will we be able to have our secret time
Among all these people?

More more more, come closer
More more more, a little more
Come closer baby
More more more, a little more
Come closer and hug me tight

When I'm with you, I'm at peace
When I'm hugging you, I feel dreamy
Right now, it's just you and me
Just remember one thing
When I'm with you, I'm at peace
When I'm hugging you, I feel dreamy
Right here, it's just you and me
Make us our own little secret

It's the same feeling every day
Let me open your eyes for you tomorrow
So I can know you better
I wanna go to a peaceful world with you
I wanna sleep with you
Make a secret with me

Let's not get up early in the morning
I'll cook breakfast for you
Let's eat and shower
If you wanna do something, tell me
Do it with me
If I'm with you, whatever it is, I'll be happy

More more more, come closer
More more more, a little more
Come closer baby
More more more, a little more
Come closer and hug me tight

When I'm with you, I'm at peace
When I'm hugging you, I feel dreamy
Right now, it's just you and me
Just remember one thing
When I'm with you, I'm at peace
When I'm hugging you, I feel dreamy
Right here, it's just you and me
Make us our own little secret

The moon and the stars shine on us
We lock eyes, we hold hands, into your dream

More more more
More more more
More more more

When I'm with you, I'm at peace
When I'm hugging you, I feel dreamy
Right now, it's just you and me
Just remember one thing
When I'm with you, I'm at peace
When I'm hugging you, I feel dreamy
Right here, it's just you and me
Make us our own little secret

Make us our own little secret
