I'll be a wolf forever
Or I can live alone
I'll do it with you, whatever it is
Yeah, I just wanna be with you
I want you to be my hope and my dream
I'll say it again
I just need you
I'll be with you forever
You can take the lead
Let's do it together, whatever it is
Whatever it is, I wanna do it with you
I want you to be my first and last
Likewise, I want you to be my last
I'll say it again, I only need you
Tell me, just do it with me
It's not light
I'm just like this to you
Teach me, hurry and teach me
You keep scolding me, what can I say?
I won't tell my mom
You can come more inside
I'll go inside
You and I, we're so good together
When you ask me how precious you are to me
I can tell you very clearly
You're my dream and breath
I'm ready
I'm going deeper inside
I want you, I want you
I only want one thing
Tell me that no one else can have me
I want you, I want you
I want you too
No one but me can have you
I'll be a wolf forever
Or I can live alone
I'll do it with you, whatever it is
Yeah, I just wanna be with you
I want you to be my hope and my dream
I'll say it again
I just need you
I'll be with you forever
You can take the lead
Let's do it together, whatever it is
Whatever it is, I wanna do it with you
I want you to be my first and last
Likewise, I want you to be my last
Our own space
Your touch that only I know
Our breaths are mixed together
We're asking each other
You answered me, nice
You did it too, nice
Another night will come again
Yes, we're right
I want you, I want you
I only want one thing
Tell me that no one else can have me

I want you, I want you
I want you too
No one but me can have you
I'll be a wolf forever
Or I can live alone
I'll do it with you, whatever it is
Yeah, I just wanna be with you
I want you to be my hope and my dream
I'll say it again
I just need you
I'll be with you forever
You can take the lead
Let's do it together, whatever it is
Whatever it is, I wanna do it with you
I want you to be my first and last
Likewise, I want you to be my last
Just promise me one thing
Be my wolf
Then make it a full moon every day
All the places you don't know yet
I'll take you there
So remember this moment
Yes and I'll show you first
I'll be a wolf forever
Or I can live alone
I'll do it with you, whatever it is
Yeah, I just wanna be with you
I want you to be my hope and my dream
I'll say it again
I just need you
I'll be with you forever
You can take the lead
Let's do it together, whatever it is
Whatever it is, I wanna do it with you
I want you to be my first and last
Likewise, I want you to be my last
