All By Yourself

I Against I

i know you're waiting for so long, waiting for a sign. a sign t
hat someone cares about you. but life is hard the way we live,
putting each other down. killing people in our minds.... we got
ta hide it all, we gotta hide it in our lives... and every day
you went to school scared to be the one, the one they shall ter
rorize. standing in this world all by yourself. it's you and on
ly you. all alone you will survive. you've done it all by yours
elf.
