

Gravity Bomb

I Am Empire

Light it up my love
And sparks will ignite
Glory will fly through the window of time
I'll raise a glass to you
Here's to the past
I've found it at last
A gravity bomb
This feels so wrong but maybe it's right
Stuck in a wall standing so tall

I don't know how else to say it
No one knows
Not even you can light the fuse
I don't know how else to say it
I don't know
I don't know you
If I could float up to your ceiling could I see it through

Light it up my love
The things we should do
To feel just like new
We don't have a clue
Giving in to sin
And calling it love
It's a dangerous run
A gravity bomb
This feels so wrong but maybe it's right
Stuck in a wall standing so tall
Built it up to watch it fall

I don't know how else to say it
No one knows
Not even you can light the fuse
I don't know how else to say it
I don't know
I don't know you
If I could float up to your ceiling could I see it through

This feels so right but maybe it's wrong
Oh no gravity bomb

I don't know how else to say it
No one knows
Not even you can light the fuse
I don't know how else to say it
I don't know
I don't know you
If I could float up to your ceiling could I see it through
