

# The Mastermind Is Me

**I Am Empire**

Run to the door Rip out the floor I never thought the dead were  
right beside me My friends always said I live in my head Truth  
is I trap myself till no one understands

Give me the time to take back what's mine How could it be the m  
astermind is me? Give me the time to take back what's time How  
could it be the mastermind is me?

Cold and alone the sun might explode Oh, is there anything to m  
otivate me? The best of my days are wasting away Truth is I lik  
e the fight but God I need some light
