Down at the Front

I Am Kloot

I've got what you need
I've got what you want
I'll meet you at eight
Down at the front
Down at the front

I've heard that you called To find that I'd gone I'll meet you at eight Down at the front Down at the front

This town's got too small for all of us here so we crawl the walls till we disappear we disappear

I've got what you want
I've got what you need
down at the front
just you and me
just you and me
just you and me
down at the front
down at the front
down at the front
