

These Days Are Mine

I Am Kloot

These days are mine
Just one smile taking up all my time

Isn't it great?
The future just keeps on coming
The corners of light
You can't see where you're running
Put on the light
And turn the night back into day
Put on the light
Well what is gone and what remains

The great and the good
The restless of hearts and lonely
Misunderstood
The twisted, the mad, the Holy
Put on the light
And turn the night back into day
Put on the light
For what is gone and what remains

These days are mine
Just one smile taking up all my time
White lines, road signs
Just one smile taking up all my time

These days are mine
Just one smile taking up all my time
White lines, road signs...
