

Found My Freedom

I AM THEY

This ain't a song about chains
'Cause my chains are gone
This ain't a song about the past
'Cause I'm moving on
No more songs about guilty
With words like regret
Every melody's sounding
Like mercy instead

This ain't a song about chains
No, my chains are gone

I found my freedom in You
I found a joy I can't lose
And thank God it's true
You wrapped Your arms around me
And heaven broke through
From the moment You found me
I found my freedom in You

Oh, I wanna sing about a savior
And the price that was paid
I wanna sing about the blood
That washed my sins away
No more songs about broken
With words like defeat
Every melody sounding like

I found my freedom in You
I found a joy I can't lose
And thank God it's true
You wrapped Your arms around me
And heaven broke through
From the moment You found me, Lord
I found my freedom in You

Found my new name
Found that good grace
Found that healing
And the tears fell down my face
When I found my beginning
That has no ending
Found that second chance
Found my best friend

Found my forgiveness
Found my happiness
I've been singing ever since

I found my freedom in You
I found a joy I can't lose
And thank God it's true
You wrapped Your arms around me
And heaven broke through
From the moment You found me, Lord
I found my freedom in You

I found my freedom in You, Lord
I found my freedom in You
I found my freedom
I found my freedom in You
