

# Control

## I Blame Coco

I've lost control  
And I've lost my soul  
My heart's turned to coal  
'Cause I've lost control

Is that why you think I'm cool  
Because I get fucked up on you  
I've lost control  
And I've lost my soul

Is that why you think I'm cool  
Because I get fucked up on you  
Is that why you think I'm cool

How can this be wrong, babe  
I hope that I can stay  
Until my heart freezes sober  
See, I just think we're drunk  
Maybe we're caught in a car crash coma  
Can we be drunk forever

I've lost control  
I've caught your cold  
Is that why they'll call us fools  
Because we're being untrue

I've lost control  
And we've lost our souls  
Is that why they'll call us fools  
Because I get fucked up on you  
Is that why you think I'm cool

How can this be wrong, babe  
I hope that I can stay  
Until my heart freezes sober  
See, I just think we're drunk  
Maybe we're caught in a car crash coma  
Can we be drunk forever

And now that I'm lost  
I'll always wanna love you  
And now that you're lost, by the way  
Do you love me too

And now that we're lost  
I'll always wanna love you  
Don't mind if I do

How can this be wrong, babe  
I hope that I can stay  
Until my heart freezes sober  
So, why don't we just get drunk  
Maybe we're caught in a car crash coma  
Can we be drunk forever

I've lost control  
I've caught your cold

I lost my soul  
Let's be lost forever

I've lost control  
I've caught your cold  
Let's lose control  
Let's be drunk forever
