

It's About To Get Worse

I Blame Coco

There's a darkside living in my bloodline
And there's a shark line fishing by the poolside
Sometimes I disguise discomfort with a white lie
But you figure me out, you figured me out

I want this and I want it now
I need it and I need it now
Just one kiss and I want it now
I feel it, I feel it

I'm reaching out are we gonna sink or swim?
I'm hibernating, under your skin
I'm petrified I am losing everything
Cause I want what you have

It's about to get worse
It's about to get worse before it gets better
It's got to get better
It's about to get worse
It's about to get worse before it gets better
I hope it gets better

I feel overwhelmed by this surprise
I'm gonna win a prize tonight, if I don't cry
Now that you've recognized there's a problem
It's about to get worse, it's about to get worse

I want this, I want this to work
I need this, I need this to work
Not one tear, will fall in your hands
It's just a feeling, a feeling

I'm reaching out are we gonna sink or swim?
I'm hibernating, under your skin
See I'm so petrified I am losing everything
Cause I want what you have

It's about to get worse
It's about to get worse before it gets better
It's got to get better
It's about to get worse
It's about to get worse before it gets better
I hope it gets better

Lift up my eyes
And replace my mind
I hope you will fall
I hope you'll fall in love with me again

I'm reaching out are we gonna sink or swim?
I'm hibernating, under your skin
See I'm so petrified I am losing everything
Cause I want what you have

It's about to get worse
It's about to get worse before it gets better
It's got to get better

It's about to get worse
It's about to get worse before it gets better
I hope it gets better
