

## Cough out the Sick

I Declare War

I feel buried  
Suffocating on the dust  
Falling through the cracks into my mouth

Cough out the sick  
It will never work this way  
Gutted by this emptiness I have inside me  
Knowing, seeing all this beauty around me

Nothing will ever change that  
The light inside me is dim  
The wick has hit the floor  
Snuffing itself out  
This world's a motherfucker  
You're just stuck in it  
Pull the chair  
Gasp for air  
Snuffing yourself out  
The looks I get  
These bags under my eyes  
It doesn't eat at me anymore  
It's a part of me  
No working through this sickness  
No searching for a cure

Cough out the sick  
It will never work this way  
Gutted by this emptiness I have inside me  
Knowing, seeing all this beauty around me
