

# Hopeless

## I Declare War

These years  
Almost 10 fucking years  
I've given my all, everything I have inside me  
Blood, sweat and tears  
A lifetime of mental scrutiny  
Exiled by my friends forgotten by my family

No hope, blood sweat and tears, leave us behind  
Condemned to a world of solitude  
Every road turned down finds a dead end  
Single serving friends, knowing they will be gone before you know it

I can't expect to find love from anyone  
Nothing is harder than letting someone down  
I have found there is no winning  
Bury my face in my hands  
I'm tired of these stupid games  
I'm not totally innocent  
I'm tired of these stupid games, leave us behind  
Faceless figure always scrutinizing  
Nothing will ever be good enough for you  
I didn't ask to be abandoned, I will be damned if I fucking quit  
I'm tired of this stupid game  
If you aren't on board jump the fuck off  
Leave us behind we will keep moving with or without you

I'm not totally innocent  
I know I've fucked up  
I stuck it out though I didn't leave and just give up

No hope  
Blood sweat and tears  
Hope left years ago  
No hope  
No hope, hope left years ago no hope
