

## Quiet

### I Declare War

Dead on the ground  
You're going to f\*cking rot  
No reason you should be alive  
It's fucking disgusting  
Human filth stewing in your own piss and shit  
A violent hatred  
No conflict of nature  
As a whole it makes me fucking sick

Close your eyes  
It's human fucking nature  
To stab those you love in the back  
Wallow in your own self pity  
You disastrous human pile of shit

Kill, kill, kill yourself  
Disgusting human vile piece of shit  
Our putrid stench, it wafts in the air  
The devil has a hold of your soul  
There is nothing thats going to get it back

My hope is gone  
For now I sit and watch

Close your eyes  
It's human fucking nature  
To stab those you love in the back  
Wallow in your own self pity  
You disastrous human pile of shit

Your lifeless limp body  
Buried halfway in the ground  
Your lifeless limp body  
Buried halfway in the ground
