I Declare War

You will beg and quiver before me. Now you know what fear truly is. Given the world to succeed. What a fucking joke. It's kind of funny how shit works out. Choke on a dick. You're a fucking trick. I will rape you of your dignity. As I strip you of your livelihood. Has life been too hard for you? Did it feel good w hile they're inside? I can't wait to hear you scream. You beg a nd plead for me to stop. Yet I can't control myself. Your insid es will taste superb. Will your family miss you? I am to believ e not. Hopefully more will meet your fate, for I must feed my c ravings. I will rid the world. Your body reeks of filth and dis ease. So spread your legs and let's begin. The extraction of yo ur tools of corruption. Were you mommy's princess? Or just a da ddy's girl? Seems your luck has run out. Your demons have caugh t you. Take a look at your life. Was it worth it in the end? Sh ut up you fucking slut. Take your grasp of air. Say goodbye to all you love. 'Cause no one loves a cunt.
