

FIND ME

I Dont Know How But They Found Me

Lonely, looking for someone to find me
Lonely, looking for someone to find me

What have we here?
Who made this mess?
You try to clean it in your thousand dollar dress
But the stains are black
Just like your soul
You try to cut them out
But you get left there all alone

And now I
I've been so lonely
And I've been out looking for
For someone to come and
To come and find me, oh
Oh, I've been lonely
And I've, oh, I've been looking for
For someone to come and
Now come and find me

Seduce a friend
Nose in the air
Coordinated, matching luggage
Polyester leisure wear, oh
Now drag the floor
Sink into the void
Make sure the tape is rolling
And the camera feed is live

And now I
I've been so lonely
And I've been out looking for
For someone to come and
To come and find me, oh
Oh, I've been lonely
And I've, oh, I've been looking for
For someone to come and
Now come and find me

Lonely
Looking
For someone to
Find me
Lonely
Looking
For someone to
Find me (Oh)
Lonely
Looking
For someone to
Find me
Lonely
Looking
For someone to
Find me
