

From The Gallows

I Dont Know How But They Found Me

You're Beautiful
And evil too
Sinister and vile
For you, I'd die
Or kill myself
Whichever makes you smile
And if I succeed
I'll count all your teeth
I'd swing from the gallows and wave
And there, from the noose
Lest you cut me loose
I'd carousel into my grave

Darling
Lord knows you're beautiful
But you're evil
Fact is
You're down right vicious too
But each night I look
Up at the stars in the sky
And I can't help it
But I still wish I was with you

And if I succeed
I'll count all your teeth
I'd swing from the gallows and wave
And there, from the noose
Lest you cut me loose
I'd carousel into my grave
