

## KISS & TELL

### I Dont Know How But They Found Me

Keep your magic  
Save your savage little games  
I'll admit we're both to blame, but  
I've been a fool for your love too long

How could it be so sweet, but you're bad for me  
Leave me with a heartbreak and a tragedy  
I can't give you what you want no more, oh

So if you kiss and tell  
C'est la vie, farewell  
I'll be sure this tragedy ends  
Oh, c'est la vie, farewell  
If you kiss, if you tell  
We can never speak  
Never see each other again

So go fight off all your demons  
Maybe you'll find someone to keep  
(Find someone to keep)  
Until then you can dream of me in your sleep

So if you kiss and tell  
C'est la vie, fare-thee-well  
I'll be sure this tragedy ends  
Oh, c'est la vie, farewell  
If you kiss, if you tell  
We can never speak  
Never see each other again

Oh, nobody needs to know  
What we do  
Where we go  
Oh, who will?  
So just mind your own business

And if you kiss and tell  
C'est la vie, say farewell  
I will be your imaginary friend  
Oh, c'est la vie, farewell  
If you kiss, if you tell  
We can never speak  
Never see each other again
